IMPORTANT - READ CAREFULLY

Static Cling Signs

Make sure that the application surface is clean, free from dust, debris, etc.

If dirty, clean accordingly; however wait until application surface is dry before applying your static cling sign.

Peel off the back liner material.

Apply your static cling sign to application surface from top downward. Using your fingers or a squeegee, gently rub it down to give it a better hold.

If it is not straight or in your desired position, simply remove and apply again. It's that easy!

The purchaser of this product is agreed that the sole responsibility of the manufacturer of the product for any claim or defect relating to the product shall be the replacement of the product should it be damaged due to imperfect manufacture, and that the manufacturer of the product does not in any way warrant the merchantability of the product or the fitness of the product for the particular purpose for which the buyer intends to use the product or any fading or damage to the article to which the product may be applied.
